

Max Marienko

I'm a Shopify Expert with wide experience building complex web applications, focusing on Shopify and React platforms. I specialize in integrating modern solutions into existing online stores using the latest best practices, creating new stores from scratch, and migrating them to OS2. Furthermore, I have experience supporting legacy stores, working with the Google Cloud Platform, and performing code reviews.

My English proficiency level is Intermediate, and I've spent the last two years working in English-speaking teams.
